EDUCATION

B.TECH (CSBS) - Sri Eshwar College of Engineering | **CGPA - 7.7**(upto 6th Sem) **2021-2025**
HSE- Nirmala Matha Convent Matric.Hr.Sec.School | **Score - 86.66%** **2019-2021**
SSLC- Nirmala Matha Convent Matric.Hr.Sec.School | **Score - 78.6%** **2018-2019**

WORK EXPERIENCE

Digital BackOffice Ltd | UI/UX Designer **2024**

During my 6-month internship as a UI/UX Designer at Digital BackOffice, I designed and developed websites for four real-time projects, focusing on enhancing user experience and functionality. I conducted comprehensive user research and analysis, ensuring design decisions were user-centered and aligned with project goals. Through this experience, I gained valuable skills in design research, wireframing, prototyping, and usability testing, further strengthening my abilities as a UI/UX designer.

PROJECTS

MoView - UI Design

MoView is a movie review platform built with MERN Stack which enables users to share opinions, read reviews, rate films, and discover new movies based on recommendations. Utilized user-centered design to enhance engagement and retention.

ProdNote - UI/UX Design

Designed the Prodnote website, focusing on user-friendly, responsive interfaces for seamless product discovery and reviews. Integrated features like product filtering, review systems, and social sharing to enhance user engagement. Conducted user research to refine the interface and improve overall usability.

SkillSync - UI Design

The project streamlines internship searches by matching students with opportunities based on their interests and skills. It introduces a novel evaluation method for companies, emphasizing candidate assessment through project completion.

CERTIFICATIONS

Certificate of Internship for UI/UX Design - Digital BackOffice **2024**
Digital Skills:User Experience - Accenture **2024**
UI/UX for Beginners - Great Learning **2024**
